Yi-Ru (Kelly) Liang

Web Portfolio

I combine analytical thinking with visual design to turn raw data into clear, engaging visual stories that people can easily understand, explore, and connect with.

EDUCATION

MSc in Cartography

TU Wien

Vienna | September 2024 - October 2026

- International programme jointly offered by four European universities, with a cohort of 31 students from 24 countries.

BSc in Statistics and BA in Geomatics

National Chengchi University

Taipei | August 2019 - January 2024

SKILLS

Data Visualization: JavaScript (D3.js, Leaflet), Python (Matplotlib, Plotly), Power BI

Data & Programming: Python (NumPy, Pandas), R, SQL, JavaScript, HTML/CSS

Geospatial: ArcGIS Pro, QGIS, Google Earth Engine

Visual Design: Canva, Affinity, Figma

3D & Interactive: Blender, beginner in Unity

Presentation Design & Delivery

Other: AutoCAD, Microsoft Office, Notion

Mandarin (native), English (business fluent), German (A2 level)

HONORS

Erasmus Mundus Scholarship recipient

European Commission

October 2024 - September 2026

Undergraduate Research Fellowship

National Science and Technology Council

Taiwan | July 2023

WORK EXPERIENCE

Master Thesis Project

VRVis GmbH

Vienna | April 2026 - September 2026

- Designed and developed an interactive 3D prototype to visualize neighborhood-scale urban heat stress.
- Implemented the prototype in Unity and developed a visual analytics pipeline in C#.
- Evaluated usability through a mixed-method user study involving questionnaires, exploratory tasks, and interviews.

Project Management Intern

Strong Engineering Consulting Co.,Ltd.

Taipei | April 2024 - August 2024

- Analyzed 100+ gravel pits on public land by processing UAV imagery and generating 3D spatial data for assessment and documentation.
- Developed training materials, including presentations and reports, on photographic techniques and Agisoft Metashape workflows.
- Improved operational efficiency by automating workflows with Google Apps Script, AppSheet, and Python.

Drone Mapping Intern

National Science and Technology Center for Disaster Reduction

Taipei | July 2023

- Conducted UAV mapping of landslide areas and estimated landslide volumes using orthophotos and digital surface models.

Spatial Analysis Intern

Academia Sinica

Taipei | July 2022 - August 2022

- Analyzed future temperature and land cover data using K-Means clustering to identify spatial patterns under different climate scenarios.
